Are you NEW to the LiveOnline Format?

Here's what you need to know!

The LiveOnline™ format is a live auction, no different from a traditional auction, but takes place online at **www.CCI.live**. You will login and get a buyer number, no different from bidding online at any of our traditional auctions. There will be an auctioneer and you will simply click to bid. The only difference in a LiveOnline™ auction and a traditional auction is that there is not a place of venue or an actual sale location, it all happens online. Like any other sale, you can always visit the farm and view the sale offering prior to sale time.

Of course, you can still participate in the bidding without a computer or mobile device by calling any of the sale staff to place your bid privately or be on the phone at sale time.

GET STARTED

- 1.** Go to www.CCI.live.
- 2.** Login or create a new account (Click on Buyer Login)
- 3.** Go to the sale page for the auction.
- 4.** Click GET BUYER NUMBER and bid with confidence.

TIPS FOR ONLINE BIDDING

- 1.** Make sure you have good internet, preferably with 2 mg upload or more. You can visit www.testmy.net to check your upload speeds. If you are traveling during the auction, pull over or just phone in to bid. Bid early, when the bidding starts, on your lots of interest. By bidding early, we know that you are interested and we will make sure you have every chance to bid.
- 2.** Do not use Internet Explore Version 9 or less. CCI.live is best viewed on Google Chrome, Safari, Firefox and other modern browsers, that are still supported by their operating systems.
- 3.** LiveOnline™ sales, with audio only, are best viewed on your laptop or desktop so that you can enjoy the pre-recorded video of the cattle simultaneously with the auctioneers voice. You can of course still hear the auction and bid on your mobile device.

For more information or assistance signing in for the sale contact CCI.live at 516-366-0734 (text or voice) or email us at schedule@cci.live

1 MAV Picture Perfect 984G ET SHORTHORN Open Heifer

*x4300526 984G 10/12/19 Polled Red

Sire MAV Charisma 906W

Dam MAV Picture Perfect 902W

Dam's Sire GFS Creole 9590 ET

Over the years we've brought some great ones to the Revival, 984G is truly one of them. She is so genuine and her structure is impeccable. When I speak of her being genuine, you won't be disappointed when she's on the wash rack. I wasn't the first time! She has the predictability of the Picture Perfect cow family and her sire, MAV Charisma, needs no introduction. Ask anyone who has invested in Charisma daughters. They will tell you that they are the "real deal" as cows and donors. The earning potential of this female after her show career is hard to quantify. Retaining flush rights to obtain six embryos.

Sire MAV Charisma 906W

Dam MAV Picture Perfect 902W

Dam's Sire GFS Creole 9590 ET

985G is a true cow prospect and breeding piece. I'm going to continue to brag on these Charisma daughters and their earning potential as working cows. Also consider the Picture Perfect on her dam's side and you have a stacked pedigree. As an added bonus, Lot 2 is gentle and suitable for a beginning showman. Retaining flush rights to obtain six embryos.

*x4296634 1981 11/13/19 Polled Red w/White Marks

Sire CF Solution X ET

Dam CF CSF Margie 575 HC ET

Dam's Sire Free K-Kim Hot Commodity

The dam of Lot 3 was a standout show heifer for owner David Smith, and the Cates and Cornerstone breeding programs. Margie 575 was Grand Champion of the 2016 National Junior Shorthorn Show and continued on to win Grand Champion of the 2017 National Western Stock Show. This November Solution x Margie will be competitive in her division on the national level. She gets better every day, and is a genuine donor prospect. Plus, she has a super disposition for a young junior – an investment in this heifer could build a premier Bred and Owned program! Retaining flush rights to obtain six embryos.

Sire Byland Global 5M10

Dam ARG Potranca 1774 ET

Dam's Sire Alston Polar Star

Here is a special female lot! Produced by our Argentine female who was Supreme Champion of the Palermo Show in 2017, ARG Potranca 1774 sold to Mike Bennett and Ricky Guidry in the 2017 Revival sale for \$24,000. This Potranca 1774 x Global has that extra power! She will make a cow that can be mated either way – purebred or clubby – with effective results. Roan Potranca has a good haircoat and show ring presence. Retaining flush rights to obtain six embryos.

Sire MAV Charisma 906W

Dam MAV Emily 734T

Dam's Sire CT Sonny & Clear 5797 ET

"If it isn't broke don't fix it!" Charisma x Emily is a signature mating here at Weeping Fox. We keep going back to this match because we, and our customers, have had so much success with it in the ring and after their show careers. This young November has a predictable, bright future. I've got two of them that will be moving to the donor pool in 2020. Emily 734T herself is thirteen years old so we are nearing the end of the duplicates we can produce. I'm going to keep pounding on this, these Charisma daughters are great property! A good choice for a beginning showman. (Note: four full sister IVF Heifer Embryos sell as Lot 7.)

Lot 4 is built a little "clubbier" than the other heifers we're offering, but we like to bring something for everyone. Another chance to hook into a MAV Charisma daughter and the predictability and earning potential that comes with them. Another good choice for a beginning showman. (Note: four full sister IVF Heifer Embryos sell as Lot 7.)

Dam MAV Emily 734T *x4126025 (CT Sonny & Clear 5797 ET x MAV Najah 4030, SCC Eskimo Joe G50)

At thirteen years of age there's a reason we've kept Emily 734T in the donor pool. She's just so predictable and consistent! As I stated earlier, two 734T daughters by Charisma are moving to our donor pool this year. This mating will produce full sisters to Lots 5 and 6 that will show, but more importantly, they will make great breeding pieces. Like I said, "If it isn't broke don't fix it!"

Offering 4 IVF heifer embryos. One pregnancy is guaranteed.

Lot 9 is sired by the 2016 Michigan Beef Expo Supreme Champion, No Reservation, resident herd sire at Greenwood Farms. Greenwood Farms' elite donor SULL Martha 7172E has passed on her sound structure and maternal design to Martha GW113. Her maternal granddam, SULL Bo's Martha 4101, was the 2015 National Junior Shorthorn Show Reserve Grand Champion who went on to earn the Grand Championships of the 2015 NAILE Open and Junior Shows. Show ring genetics run deep in this attractive ShorthornPlus female with true competitive potential.

Anyone who has followed our program over the years knows we have raised some really good ShorthornPlus heifers that have won at the national level. I've loved this heifer since the day she was born and consider her to be one of the really good ones to come out of our program. She's a granddaughter of TS Felecia who produced some of our most potent genetics – a particularly fine example of her impactful offspring is MAV Charisma! Lot 10 can be dual-registered as a Maintainer. Retaining flush rights to obtain six embryos.

Unfortunately, Lot 11 was orphaned at two weeks of age and understandably had a tough summer. At two weeks of age, she was phenotypically and genetically too good to give up on and send down the road. I'm glad now we had faith in her genetic potential and continued to work with her! Recently she's really catching up to her penmates and giving me that "look" I'd expect from this mating. Lot 11 can be dual-registered as a Maintainer. Retaining flush rights to obtain six embryos.

Looking back over the years we've had this June heifer's mother in the herd, she has been a predictable solid part of our Hereford cow base. This year, as usual, Marshmallow 21U didn't fail us. From any angle or criteria this heifer is solid. To be competitive you need to check all the boxes on the list of basics and she does that. Her pedigree is a little different, there's no About Time or 2296 in her, giving the new owner a lot of flexibility at mating time. Retaining flush rights to obtain six embryos.

There has never been a mating at Weeping Fox that has sent more cattle to the backdrop at the state and national level than this one. Not in our Shorthorns, and not in our Herefords. This female has the same attributes as her full sibs that competed nationally, so history is on this young heifer's side. Last year we found out the value of this mating in the donor pen, these Cotton Blessing X Twenty-twelve daughters will likely out produce their mother. Retaining flush rights to obtain six embryos. If you are looking for an opportunity to excel in the May class this 3/4 Simmental, 1/4 Angus heifer is the right choice. Flawless structure, big body, and excellently balanced phenotypical design describes Lot 25. Her sire was two-time Percentage Simmental Reserve Show Bull of the Year and was slapped Reserve Grand Bull at the 2018 National Western and the American Royal. Her dam is sired by the popular W/C Relentless whose progeny have excelled in the show ring. Based on the strength of the "Roxanne" cow family that she stems back to, you can be sure this heifer will also add maternal strength to your herd once in production. This superstar SimAngus prospect is royally bred. Her sire is the popular and many times champion HPF Quantum Leap Z952. Her dam, "Roxanne," left her mark in the show ring as Grand Champion two years running at the Kansas Beef Expo and 3rd overall at the 2011 National Junior Simmental Show. "Roxanne" continued her winning ways as a production female earning Supreme Champion Cow Calf at the 2015 World Beef Expo and two-time Grand Champion Cow Calf at 2013 and 2015 NAILE. The superior phenotype of her sire and dam carry into this exceptional 3/4 Simmental, 1/4 Angus prospect. "Sheeza Roxanne" presents the unique opportunity of a dazzling show career with unlimited potential as a future production female in your herd. Retaining flush rights at seller's expense and buyer's convenience.

With her 2018 calf crop, Missing Mirage 2120 solidified herself as one of the premier Shorthorn donors in the U.S. We love the Aviator x 2120 mating and believe the heifers it has produced have as much upside potential as any heifer calf ever born at Marion. Think about the cost/value proposition here: Aviator semen is high-priced and hard to find, and creating IVF heifer embryos from an ultra elite donor sure isn't cheap! Lot 27 presents an investment opportunity that will take your herd in a new direction!

610S has had an illustrious career here at Greenhorn Cattle Co. and this will be the last of her frozen genetics offered by GCC as she was lost last year. Silveiras Style has been the go-to Angus sire for ShorthornPluses. A full sib to these embryos commanded \$6,500 for Troy Decker in last year's production sale. We have consigned to all the Revival sales, both fall and spring since the beginning in 2002, and we wanted to bring something special this year. This package of truly scarce embryo is as good as it gets!

We've only had a few full sisters to this embryo mating, but I absolutely love what Profit is doing on moderate framed, whale-bellied, sound structured, halfblood Style donors. I think they can be elite show heifers, and especially valuable 3/4 Simmentals used to breed to create 7/8 Purebred Simmentals. Lots 30 and 31 are genetics with predictability you can count on!

Dam Hara's Princess 6352d 3173450 (MR HOC Broker x Haras Harrietta Clone H4W, Who Made Who 411F)

Hara's Princess 6352d is one of the most unique daughters from the proven Broker/Harietta mating. She has a combination of incredible body shape and depth with a long, cool front one-third. This is the initial mating on this young future star donor who had a successful show career as Grand Champion of the Badger Kickoff. The Broker/Harietta daughters are making excellent cows and producing elite offspring competing at the highest level across the country. After seeing the results of our first "Lover Boy" calves in our 2019 fall calf crop, this mating gets me extremely excited – the performance and extra "look" of Princess 6352d will make this mating a home run. The ability to create 3/4 progeny from the females that result from this mating will add value to a program focused on making future donors.

Here's a fresh mating of Sultry 6640 to STCC Jacked Up, Reserve Champion Purebred Simmental Bull at the 2016 NAILE. We have one heifer on the ground from this mating and she is really nice. She was sold last year by Evan Sumners and has had a very successful show career. Sultry 6640 works with every bull we have ever mated to her. Expect a lot more to come from her as we are going to have a heavy dose of her genetics in our 2020 calf crop, and will be putting more in for our 2021 calf crop.

CCI LIVE **LiveONLINE™**

LiveOnline™ is a **LIVE AUCTION** conducted at the CCI.Live Studio in OKC. The broadcast and bidding are "live" and "online" in real time. Sale lots are displayed and viewed using pre-recorded videos, and sold using the service of a professional auctioneer to conduct the auction.

To participate in the auction, bidders register and log-in to CCI.Live on the internet via computer, tablet or phone. During the auction, bidders SEE videos of sale lots and HEAR the auctioneer. As each lot is offered by the auctioneer, bids are placed LIVE either by computer (bidding just like a normal online broadcast) or by phone (talking to sale staff on site at the CCI.Live Studio).

The LiveOnline™ sale has a date and scheduled start time just like a regular auction. Remember, this platform is a live auction that starts with the first lot offered, and ends when the last lot is sold.
