CELEBRATING THE 25th ANNIVERSARY OF THE GREAT SHORTHORN REVIVAL

The REVIVAL 25

Opportunity is where the need is...and where the need is great the opportunity is great. Don't let the Great Shorthorn Revival pass you by!

Start today! If you need a new bull, travel farther, look harder, pay more... but insist on the bull you need. Don't settle for a substitute for a good bull. Pick up the big, strong females you occasionally have the opportunity to buy. The kind that will produce a calf every year, and give enough milk to make a job of the calf. Start today to build up the strength of your herd. Competition demands that all of us Shorthorn people produce bulls that will sire bull calves strong enough to be preferred by commercial cattlemen all over America.

Don't let the Great Shorthorn Revival pass you by!

Excerpt from "The Great Shorthorn Revival," the magazine article that inspired the sale theme • Written by Dave Lorenz, Kansas City, Missouri for the 50th Anniversary Herd Bull Number, Shorthorn World, April 15, 1965
Digital watercolor painting of Crawford Maid 7E, 9-year-old dam of Lot 70 • Gord Crawford: "About a week ago after a nice rain, I was checking pastures and there she was just standing there waiting to have her picture taken."

We were inspired to create The Great Shorthorn Revival in 2001 on a sale weekend trip with Clint Tomson, age 92 at that time.

Clint was a Shorthorn man from birth, an international show judge, salesman extraordinaire, and he served as Executive Secretary of American Shorthorn Association from 1941 to 1951. He left the association to join his boyhood Shorthorn friend Frank Harding, and Frank's father F.W. Harding, in forming American Live Stock Insurance Co., but Clint never left behind his love for the breed he helped make great.

Steve kicked off our two days of discussion with a great question that had perplexed him for some time, "Clint, how are we going to get Shorthorn breeders to focus again on the cow families that made the breed great?"

Without hesitation, Clint held forth with a marketing lesson like none we'd ever had. He started with, "Steve, you're going to have to create an **ECONOMIC OPPORTUNITY**. You can't just tell people the cow families are important. You have to show them! And show them right in their pocketbook, where it counts the most!"

It is our privilege to celebrate the 25th year of Revival Sales and we will be honored for you to join us on-site or online!

Presenting...

The greatest variety of desirable, marketable genetics from proven cow families on the Shorthorn scene today.

A wide range of Shorthorn investment options that will improve your herd, and increase in value.

An opportunity to see the results of cutting edge genetics to help make future mating decisions.

A networking event to create profitable connections with leading breeders and marketing agents.

A fun and memorable experience, with good cattle and good people, that you and your family will enjoy!

***We're All In
This Together!***

Featuring **The Complete Dispersal of the Woodlawn Farms Elite Shorthorn Herd owned by Blanford & Joan Pierce**

The historic "Woodlawn Trophy" was won in 1900 by Woodlawn Advance, the first Grand Champion Steer of the first International Livestock Show in Chicago.

Remembering Blanford and Joan...

Blanford Pierce was born in 1938 and died in March, 2024. He was the fourth generation to operate Woodlawn Farms, L.B. Pierce and Sons, founded in 1871 in Creston, Illinois. Blan's great grandfather, B.R. Pierce, raised Shorthorns for ten years prior to shifting to Angus in 1881 after seeing the breed for the first time at the Illinois State Fair a few years earlier. For over ten decades, Woodlawn's pursuit of perfection set a high standard of excellence for the Angus breed. With never more than 125 cows, Angus cattle were the only source of income for the Pierce family for four generations. Blan loved telling stories of his mom and dad traveling west and introducing Angus cattle to ranchers across the western states. As a matter of fact, the prominent Stevenson family of Montana bought their first Angus bulls from his father, L.B. Pierce.

Blan continued the family's Angus cattle business at Woodlawn Farms until its dispersal in May, 2005. Two years later, with appreciation for B.R. Pierce's beginnings, the couple brought the history of Woodlawn Farms 126 years full circle. They decided to acquire and raise Shorthorns! With a deal for Steve French to collaborate as their cattle manager and partner at Little Cedar Cattle Company in Michigan, Blanford and Joan first participated as a buyer in the Revival Sales in 2007, and they have been a consignor from 2011 through 2026.

Blan's passing was truly the end of an era for Woodlawn Farms, and is a moment of historical note within the Angus community considering the breeding and showing accomplishments of his forebears. In 1893, his great grandfather won Grand Champion Bull with Wellington at the Chicago World's Fair (known as the Columbian Exposition). A daughter of Wellington was the dam of Woodlawn Advance, an Angus steer bred and developed by Blan's great grandfather (B.R.) and grandfather (S.R.) who was Grand Champion of the first International Livestock Show in Chicago. Blan's father (L.B.) had the great achievement of winning Grand Champion Pen of Bulls for 15 consecutive years at the National Western Stock Show in Denver.

The historic "Woodlawn Trophy," a large, three-handled silver cup, won by Advance in 1900 at the first International Livestock Show, was proudly displayed at all Woodlawn cattle sales. In 2007, when Blan was inducted into the Angus Heritage Foundation (following his three ancestors' footsteps), he surprised all in attendance by gifting the beautiful trophy to the American Angus Association, where it remains on display at its St. Joseph, MO headquarters.

Blan was civic-minded and involved in many organizations throughout his lifetime, as were his father and grandfathers. He was a lifelong member of the American Angus Association and a board member of the Northern Illinois Angus Association. Blanford was a generous contributor to Angus Foundation and served on the "Vision of Value" Leadership Cabinet. In 2005, he established the Woodlawn Scholarship Endowment Fund with Angus Foundation, the first fund so gifted from an Angus breeder, and it has grown through the years granting annual scholarships to youth in the industry.

Blanford's clockwork consistent morning calls with Steve got 7,300 days started right for both of them! (20 years x 365 days x 30 minutes = 219,000 minutes!) Many more friends in the cattle business across multiple states and generations stayed in touch with Blan for "cow talk" and advice up to the day before his death. He never met a stranger and loved visiting with people, especially cattle people. He was an avid reader and an interesting and quick-witted conversationalist on all topics involving cattle and agriculture, business and economics, and current events. He had a remarkable ability to recall and tell detailed stories of cattle, people and historic happenings, and an uncanny eye for potential –surely an innate talent that was stamped in his Pierce DNA!

Joan Hoffman Pierce was born in 1936 and died last October, 2025. She spent her early years in Illinois and Wisconsin and graduated with a degree in English from University of Wisconsin–Madison. Joan raised and supported her three children through teaching and, later, selling home security systems. It's no surprise that she frequently received awards for being the top salesperson of the company! As a child, Joan loved spending time with her family at her uncle's cottage in Ellison Bay, Door County, WI. As an adult, she and her sisters and their mother, Virginia, built and enjoyed "Gigi's Place" on the same grounds. Many, many good times were had there with Joan and Blan's family and friends.

Joan worked tirelessly alongside Blan taking care of the business of Woodlawn Farms. She was very proud of the legacy of the famous Angus farm and spent much of her time curating the vast collection of historical memorabilia that documented its place as the longest continuous Angus herd in the U.S. Joan's mother-in-law, Lucy Pierce, once said, "If you have an important job that needs to get done, give it to Joan." It was actually Joan's devotion to preserving the history of Woodlawn Farms that brought up the fact of B.R. Pierce's ten years of Shorthorn breeding prior to Angus. Once the Woodlawn Shorthorn "herd" was re-established in 2007, she so enjoyed spending time thinking about her cattle and she had a knack for coming up with great names for bull calves, such as Lookout and Trail Boss. Blan and Joan have faithfully supported SYDF at Revival Sales with generosity and enthusiasm.

Joan proudly served on the board of the historic Woodlawn Cemetery and she tirelessly worked on the upkeep of the beautiful, peaceful resting place of the Pierce family. She loved animals and had a special affection for purebred golden retrievers; she and Blan bred and raised hundreds of puppies that went to happy families throughout the Midwest. Joan also loved horses and kept many at the farm over the years, enjoying a ride with Blan out in the pastures of Woodlawn.

In addition to donating to many local animal shelters and rescues, at Joan's house the bird feeders were always full, the corn was out for the squirrels, and she made sure that all forms of wildlife could find shelter or food around the vast Woodlawn Farms property.

Together, Blanford and Joan enjoyed close relationships with scores of longtime cattle friends, and their blended family of children and grandchildren. Their over 50-year union was a second marriage for both that almost reached their 47th anniversary in 2024. (They dated four years before getting married!) Blan was the proud father of two sons: Carl Pierce and his wife Kris, Jake Pierce and his wife Edie. Joan adored her son and two daughters: Tim and Suzi Pleune, Beth and Jeff Martin, Laura Sykes and Mike Loptien.

It is with pride and appreciation for a wonderful friendship and successful business venture that Little Cedar Cattle Company brings our Shorthorn partnership with Woodlawn Farms to a close. Blan and Joan always selected cattle based on their potential, and their Shorthorns have been developed and managed to produce at an elite level. The decision was made by Blan and Joan several years ago that we would disperse their Shorthorn cattle and dissolve our partnerships at auction – they loved the months of preparation, strategic planning, and fast-paced, friendly competition of cattle sales! We treasure our time spent with the Pierces on early morning phone calls, fun trips to sales and shows, and even more fun herd tours on the golf cart. It is truly a gift to have gained encouragement from Blan's wisdom and wit on the ever-evolving business of breeding cattle. Joan's lovingly shared collection of clever quotes and quips, and her own razor-sharp observations, taught us what is important in the business of life. Moments with dear Blanford and Joan are truly missed. Our memories and gratitude for them are with us forever.

Steve and Julie French, Little Cedar Cattle Company

LOT 1A

**You know a dream
is like a river,**

ever changing as it flows
and the dream is just a vessel
that must follow where it goes.

Trying to learn from what's behind you,
and never knowing what's in store
makes each day a constant battle
just to stay between the shores.

Too many times, we stand aside
and let the water slip away
'til what we put off 'til tomorrow,
that has now become today.

So don't you sit up on the shoreline,
say you're satisfied.

Choose to chance the rapids,
and dare to dance the tide.

"The River" by Garth Brooks and Victoria Shaw

*Marvelous
2620*

★ For the first Revival Sale in 2002, we asked our friend Jason Brown to document the day on film. He is not a cattle guy; he is a master storyteller and digital media wizard. Camera on shoulder, Jason absorbed everything and understood that our dream mattered. He perceived Garth Brooks' great song as a perfect anthem for what we had set out to create: an opportunity to preserve the great cow families of a great breed, and recognize the life work of great Shorthorn breeders. And here we are, 25 years later.

In the chorus, Garth sings "I'll never reach my destination if I never try." Starting the 25th Revival Sale with full sisters by Dream Maker out of GCC Marvelous Margie is so meaningful! I bought the original "Marvelous" as a heifer calf from Dave and Josh Greenhorn when she was the Lot 1 feature of the 2019 Revival. I KNEW she had everything it takes to make great cattle! Of course, Dave and Josh soon saw the same potential, and they wanted her back! They were determined to take all comers in the Revival 2024 and succeeded in taking her home to Greenhorn Cattle Company. There is a "marvelous" lesson here for all students of breeding: Great cattle are not great because they win banners. They prove great when they produce one better than themselves. Marvelous Dream 2620 and Marvelous DM 2426 are Shorthorn females I have DREAMED of creating – Marvelous Margie is truly a GREAT Shorthorn cow!

I have to say, I knew Marvelous Dream would be Lot 1 when the guys sheared her out in May. She has always looked like the red version of her full sister, now a powerful young female entering her productive years. It is impossible for me to decide which one is better, so they are 1A and 1B! Both females have what it takes to 'dance the tide' and launch your dream of breeding great Shorthorn cattle toward the next 25 years.

LITTLE CEDAR LOOK AHEAD 2306 – Service Sire of Lot 1B

LOT 1A and LOT 1B are FULL SISTERS

Lot 1B certainly had a respectable show career, but that wasn't ever her purpose in life. At the 2024 Revival, Joan was determined to carry on with her Shorthorn venture and saw the potential of Marvelous 2426 offered as Lot 10A. We knew 2426 could succeed her dam, Marvelous Margie, who was selling as Lot 10. The Greenhorns took Marvelous home for \$27,000. Joan was intent to join us in the development of the young Dream Maker daughter. She didn't stop bidding until she prevailed at \$54,000 to own half. To say that Blanford was with her in spirit in this pursuit would be nice, but I'm fairly sure he "instructed" her to stop bidding several times. As usual, Joan didn't listen! When you see Marvelous 2426, you will see donor cow written all over her. However, she has yet to be flushed; Joan wanted her to have a calf first. Last fall, Marvelous 2426 ran with Look Ahead and she is due to calve before the sale. I know Joan can see her in full glory of motherhood! Because we own Marvelous 2426 with Woodlawn Farms, and we live by DWYSYWD, she must sell. Otherwise, 2426 would stay here. Guess that's enough said!

SULL RED KNIGHT 2030 ET – Sire of Lot 1C

Red Knight works extremely well on Marvelous Margie 96. The Lot 1C heifer balances up very nicely. She can certainly compete and will develop into a versatile breeding female as so many other RK daughters have.

The full sister to Lot 1C was purchased for \$16,000 in the 2025 Revival by the Harris family of Texas. Marley has done well with her in the Texas Majors. We were cheering her on as she showed Marvelous 2506 in NJSS Showmanship in Abilene. Every class of that contest is DEEP water. Marley got the job done – she placed 4th Overall in her age category. Congratulations, Marvelous Marley!

Dave Greenhorn wrote this footnote about GCC Marvelous Margie 96 as Lot 1 of the 2019 Revival...

"One of the last daughters of the now deceased Margie 8105, and we believe she could be our best!"

You aren't just buying a show heifer, Lot 1 presents our family's lifetime commitment to Shorthorns – and the greatest genetics the Greenhorn program has ever bred!"

GCC MAGICAL MARVELOUS 61 – Full Sister to Lot 2
2026 Ohio State Fair Junior Show Reserve Grand Champion

Marvelous Margie 2220 has to be one of the best female females ever born at Little Cedar! She won her division at NJSS and NAILE for Teagan. But I have to say her biggest accomplishments are her first two natural calves for Wyatt Smith, both won NJSS Grand Champion Bull – back-to-back! Gun Smoke sold to Curtis Wiedel in Nebraska in the 2025 Revival. Trail Boss was Reserve Grand Champion at Oklahoma City in 2026. A donor whose first two natural calves are competitive at the national level is a RARE find! Her Lot 2A heifer calf by Look Ahead may be her best to date. Marvelous 2220 is carrying a heifer calf by Direct Deposit (full sister to Trail Boss!) and she has been flushed three times with an average of six eggs per flush.

LOT 2A

This red Look Ahead x 2220 daughter is FANCY, FANCY. She's very smooth in her makeup. This could be 2220's best offspring of the three, and that's a big statement up against Gun Smoke and Trail Boss. Pretty impressive. I believe the future is BRIGHT in every way for Marvelous Look 2605!

LOT 2B

This heifer calf is sired by Direct Deposit which makes her a full sister to OKC Reserve Grand Champion and NJSS Grand Champion, Trail Boss. I like to offer special pregnancies because I believe they present excellent value. Man, this one is exciting! The recip is a great Red Angus who's a good mother with a super udder.

**Her deceased dam,
Marvelous WW 2319,
was a WOW COW!**

A balanced, attractive Direct Deposit daughter with plenty of body, muscle and eye appeal. Sound-made, easy-keeping, and backed by a pedigree designed for long-term value!

**NJSS 2026
HILLSIDE FARM
SPEECH CONTEST**
Prospector II Division
Adalynn Vaughn

**2026 NJSS
2nd Place
Speech**

Good afternoon! I am Adalynn Vaughn from Maxwell, Iowa. One of my earliest mean girl encounters was in third grade. The class was doing ice breakers and one of the questions was: **“What sport do you think is the best?”** So, little 3rd-grade me answered confidently: **“Showing cows!”**

Later, at recess, the principal's daughter came up to me and stated: **“SHOWING COWS ISN'T A REAL SPORT.”** For a while, I believed her.

Then I began to realize that a sport isn't defined by a ball or plays. It's about teamwork, commitment, and building lifelong relationships. My sport involves each of those aspects. It was right in front of my eyes! My team is anchored by my family, whose commitment to raising superior Shorthorns never wavers. They are my coaches and know exactly my strengths, and also my weaknesses. The practices aren't on a field or court; they are in the show barn. The late nights and early mornings teach me exactly what it takes to become great. Feeding, rinsing, brushing, and blowing seemed like endless tasks that had no meaning until I participated in my first show. My heifer looked prepped and primed. Not a single hair out of place, and she showed like a dream. Everything clicked. The seemingly wasteful hours in the barn all paid off! That day, I learned that commitment, dedication, and consistency are the keys to success.

Just like showing up to baseball practice will help you make a home run, putting in the work will lead you to succeed. Ever since then, I haven't been able to get enough of showing. I'm always on the lookout for a jackpot to go to on a weekend, or planning to spend my summer getting ready for the Junior National. Although I love showing, I also love the people. Stock show people are my teammates, competitors, and mentors. Whether you travel to Timonium, Maryland or Abilene, Texas, you will have friends everywhere. They are always ready to give a piece of advice or lend a helping hand because we all share the same goals. Just like a group of soccer moms want their children to succeed, stock show people want what's best for our futures.

Some kids might find their support on a field, but I find it in a showbarn. Maybe we don't run around throwing balls or read a playbook, but we are surely in it for the long game. We are in it for the farmers and future generations. We are in it for the life lessons and the memories. So, yes, showing is a sport. And, it's so much more than that! I wish I could go back in time and tell little 3rd-grade me never to listen to the mean girls — and always keep doing what you love!

★ Congratulations, Adalynn, on your successful competitions at 2026 NJSS and the weekend jackpot shows you enjoy.
THOUSANDS of Shorthorn Juniors just like you are WHY WE SUPPORT Shorthorn Youth Development Fund!

JSF OUTBACK 105N – Sire of Lot C

Outback is an exciting, new outcross bull and we are proud to be involved with him. I mated him to our promising young donor Margie 241 with an idea this combination has potential to produce a great show heifer or a herd bull prospect. Remember that 241's dam, Margie 542, is the equally great full sister of Marvelous Margie 96. We put some of these eggs in and have calves coming next year!

*Chelsie
401*

**2025
NAILE
Open Show
Grand
Champion**

The Chelsie cow family has had an abundance of success for the Steck family, hanging banners at many national shows over the years. Chelsie 401 was the Grand Champion Shorthorn Female of NAILE 2025, along with American Royal and Cattlemen's Congress Reserve Grand Champion Shorthorn Female.

We believe this Reserve Show Heifer of the Year could be flushed many different ways and hit a home run every time. However, we think this pairing with the Show Bull of the Year could be the next best opportunity for you to add to your herd and move ahead in this highly competitive breed. The Chelsie family is proven and now is your chance to capitalize on it!

CF CRYSTAL LUCY 230 RK X ET – Full Sister to Lot 5 Donor
2023 NAILE Junior Show Grand Champion

The Crystal Lucy cow family continues to be proven with success after success in the show ring – and they don't let up in the donor pen either!

Crystal Lucy 384, donor of Lot 5, was Grand Champion Shorthorn Female at the National Junior Shorthorn Show in 2024, NAILE 2024, and Cattlemen's Congress 2025. She culminated her extraordinary campaign as 2024 Show Heifer of the Year! What a year it was!

We have high hopes for her mating to In Demand. The heifer offspring produced has the potential to meet her incredible record!

LOT 7

COMPETITIVE
Show Heifer
and VERSATILE
Breeding Female.

We all want females to be competitive in the show ring and then be productive as cows. This heifer will do just that! She's the natural calf out of SFF Crystal's Swan HC 217 ET who bred back 27 days post calving this spring. Her sire, Naylor's Bankers Hours 363, quickly become a senior herd sire for Curtis Genetics in large part due to calves like her. He brings an outcross pedigree and a very balanced set of EPDs to her pedigree and that makes her a versatile breeding piece. Lot 7 is the type of female that will raise show heifers, EDGE heifers or herd sires – you decide! At press time, Crystal Swan 617P was named Calf Champion at the 2026 Nebraska State Fair!

MAV CHARISMA 906W
Sire of Lot 8A

WSC DREAMS TO REALITY 19K – Sire of Lot 8B
2023 NAILE Grand Champion Bull

Crystal's Swan 217 is a 3/4 sister to Crystals Swan 015 (featured on page 14) who won OKC, NJSS and NAILE for Houston Ferree. The fact that 217 did enough winning to be named Runner-up Early Spring Yearling Female for the South Central Region shows that, phenotypically, she is a force of her own. Her natural calf, Lot 7, proves what she is capable of producing. Charisma semen is very scarce and everyone knows the caliber of females he can produce. Her mating to 2023 NAILE Champion Dreams to Reality could knock it out of the park. Take your choice – 8A or 8B!

Crystal Lucy genetics are among the most highly desired in the breed and Red Knight x Crystal's Lucy is proven. This heifer pregnancy presents maximum profit potential – your opportunity to cash in on the success!

DONOR OF LOT 10

Lady
Crystal
434P-1

REVIVAL SUCCESS STORY 2026 Springtime Revival Lot 23A

We bought four Living Legend x Crystal Lady 2379 embryos in the Springtime Revival in April. Our conception rate more than fulfilled the pregnancy guarantee. We transferred all four eggs and all four recips were confirmed safe at 60 days! That kind of success sure makes it easier to offer a heifer pregnancy in the fall sale.

The difficult task is choosing the recip! I like to think of them as safe deposit boxes – they protect your valuables! You can call me crazy but the four recips we chose for these VALUABLE MATINGS are front pasture kind of cattle in their own right. Take a minute to evaluate what is CONTAINED in the "safe deposit box" of Responsible Recip #2730. Get out your highlighter and mark Lady Crystal 434P on BOTH SIDES of the Lot 10 heifer pedigree – this is next level matchmaking! Your prefix on this future donor

Awhile back, Steve and John got past their competitive impulses to pool their resources and "go for broke" (almost literally). They buy packages of four heifer embryos, share them 2 & 2, hoping to create one great heifer for each breeding program. (Sounds logical, but we all know that concept is, well, a gamble.) They've teamed up as SPECULATORS on a LOT of eggs. Lot 27 from the 2020 Revival made BELIEVERS out of em! John got TMF Crystal's Dream. Steve got Little Cedar Lady Crystal 22 (pictured). Revival Lesson #12: Don't let your silly budget get in the way of these EXTRAORDINARY Evolution heifer embryos! Find a partner if you must because there's a DONOR COW in Lot 12 waiting to be implanted!

**REVIVAL
SUCCESS STORY**
2020 Revival Lot 27

You may have noticed that Steve French and John Russell have an ongoing partnership acquiring VALUABLE embryos. They finally figured out they were bidding against each other on the same lots, a lot. A deal soon came together. (Keep reading, this is one success story you'll want to imagine for yourself!)

WARNING! THIS GENETIC COMBINATION MAY BE COMBUSTIBLE: Perfection x Dream Maker x 434P-6!

LITTLE CEDAR LADY CRYSTAL 22 ET
Donor of Lot 13 and Natural Dam of Lot 14

FSF PERFECTION 812
Sire of Lot 13

The tremendous outcross sire Perfection really works on 434P. Our Lady Crystal 22 donor is special – she is one of only a couple of females in existence of the Dream Maker x 434P combination. I'm thinking the impact of Dream Maker in this Lot 13 genetic combo is gonna be EXPLOSIVE! Let me know when you get these calves. Speaking of explosive and exciting, this donor RAISED her Direct Deposit son, True Grit. He is a BIG TIME HERD BULL!

REVIVAL SUCCESS STORY

2020 Revival Lot 1
2021 Revival Lot 3

This is a classic story of "turning lemons into lemonade" that began at the first Cattleman's Congress in January, 2021 as I watched Charlie Boyd pick BFS Margie LL 950 for his Reserve National Champion Female. What a COW! The Bollums had previously sold half interest in her for \$25,000 to Little Cedar as Lot 1 of the 2020 Revival Sale. I liked her a lot then, even bid on her a couple of times, but my budget got in the way. Standing ringside in Oklahoma City, I decided then and there that I HAD to own a 950 daughter to develop as an elite donor!

Margie 950's first offspring was offered by BFS and LCCC at the Revival in September, 2021 and I won the bid at \$8,000 for the Lot 3 Heifer Pregnancy sired by Right Direction. I felt I got a great deal especially considering the excellent BFS Registered Shorthorn Recip. I looked forward to calving out my "new donor" in March and naming her with the Armstrong prefix! The day finally came and we were all astounded to discover – drum roll – A BOUNCING BULL CALF! Cory, Steve and I have been friends for over 30 years and I felt kinda bad to have to call them. Except, I had an IDEA. The "lemonade" I proposed would convert my purchase to a three-way partnership, working together to develop, show and promote this OUTSTANDING SON of Margie 950! The deal was made and by the time Direct Deposit was displayed at 2023 Cattleman's Congress the buzz in the barn had completely sweetened my big glass of ice-cold lemonade! Direct Deposit won Calf Champion and Reserve National Champion and we were off to the races! Later in 2023, he was Grand Champion at the Iowa State Fair, Grand Champion and Supreme Overall Breeds at Keystone International, and Grand Champion at the American Royal. He kicked off 2024 with Grand Champion at Cattleman's Congress and, two days later, we made the grueling, 10-hour overnight trip to Denver. Grand Champion of the National Western left little doubt that Direct Deposit would be crowned 2023-24 ASA Show Bull of the Year!

Those big wins were expensive (time and money), valuable (breed exposure) and memorable (barn buzz and backdrops are fun) but I think the most significant thing our partnership did was introduce a revolutionary strategy for selling semen that would make an impact on the purebred industry. Collaborating with Revival Sales and CCI Live, we staged a LiveOnline semen sale right at the bull's stall at the North American. 250 units of semen were offered at public auction and, in 49 minutes, Kevin Wendt sold 30 lots of semen to 30 buyers in 15 states who were either standing at the stall or bidding live on CCI. The auction grossed \$58,725.00! Nearly all of the money was collected that very day because we had the semen on-site to take home for December breeding. The bold step to offer Direct Deposit's first semen in lots of 5 and 10 units on the LiveOnline platform made him an accessible AI sire for breeders of every level. That positioning was good for the bull and good for the breed!

After his show career, we put Direct Deposit to work at Armstrong Farms and he has proven himself to be a champion in our pastures as well! Now, we're offering the opportunity for the Show of Bull of the Year to provide leadership for your herd. If you have an IDEA to "hire" a nationally-known, proven AI/ Herd Sire as the CEO of your breeding program, make the decision to make the trip to Beaverton. You'll see Direct Deposit for yourself and experience the "barn buzz" he creates!

**Direct Deposit is the sire of
Trail Boss, Lots 3, 14, 26A, 37A and 61**

ARMSTRONG SASHA DREAM 2595
Daughter of Direct Deposit

DONOR OF LOTS 16 & 17

Margie 950

Dam of Direct Deposit and an impressive roster of Champions and Breeding Cattle!

BFS Margie LL 950 was the crowd favorite at Louisville and Oklahoma City, and was named Reserve Grand Champion at the 2021 Cattlemen's Congress. Campaigned expertly by the Wetzels family, she was Division or Reserve Division Champion, under seven different judges, at all three major shows (Kansas City, NAILE and Cattlemen's Congress) both Junior and Open Shows, as well as the National Junior Shorthorn Show.

This former show heifer is an even more impressive cow! She is the mother of Direct Deposit, 2024 Cattlemen's Congress Grand Champion and 2023-24 Show Bull of the Year. Her first daughter by Flash (pictured above right) was Reserve Grand Champion Bred & Owned Heifer at the 2023 NJSS, followed by Reserve Grand Champion of the 2024 EDGE Show at OKC. The Lot 16 Heifer Pregnancy is a full sister to Margie Flash 2104.

- Retaining the right to one successful flush at seller's expense and buyer's convenience.
- AI bred on 8/26/26 to Little Cedar Look Ahead 2306 (*x4357473) heifer semen. See sale day update.

You're gonna want to UNBUCKLE your budget for this UNBOUNDED opportunity to own the two-year-old full sister to the great Margie 950, one of the top females in the breed!

"950 Margie" was bred to Look Ahead with sexed semen to produce a heifer calf. Don't let it concern you that she bred back a little late, we flushed her and she produced five embryos sired by Gana MyTurn. When you see the Elite son she has raised you will be impressed at the big job she did with her big bull calf - Advance weaned at 750 pounds!

Joan paid \$27,000 for Margie 2401 as the Lot 11A heifer calf in 2024. We predicted then she would become the ULTIMATE WOW COW. We had no idea she would "advance" to that status this FAST!

LOT 18

LOT 18A

Named for "Advance," Woodlawn Farms' 1900 Chicago International Champion, THE FIRST CHAMPION STEER AT THE FIRST INTERNATIONAL!

THE "ELITE" SON OF 950 MARGIE

Advance is one of the stoutest roan bulls we have ever offered! He is full of muscle and has a great hair coat. I think he will compete at the national level AND become a real breeding bull!

Elite's genetics on the topside combined with the proven maternal power of his dam's side present a distinct outcross advantage that this breed needs. Advance will serve as a catalyst for change on a variety of bloodlines!

This bull calf is a credit to Joan's determination to move forward in 2024 by investing in 950 Margie as a young heifer calf - that's why we named him Advance. There's no doubt that Joanie also had a good eye for "potential!"

**MATERNAL
SISTER to
Margie 950**

*Margie
RAD
423*

With 44 progeny registered, BFS Margie RAD has done so much for our operation and this breed! The dam of Lots 19, 20A and 20B has produced winning show heifers, top-selling heifers, major breeding females, several herd bulls, and she's the grandmother of Direct Deposit. As a further example of her superiority, while she is currently nursing/raising a pair of twins as a 12-year-old, we flushed her five times this summer and she produced 46 embryos (and still looks like a donor cow doing it!).

JSF TIMES SQUARE 120G ET
Service Sire of Lot 19

Here is another daughter of Margie RAD! The two elite bred heifers we sold last year in the Revival were her maternal sibs. This one is sired by National Champion SULL Current Commodity. Lot 19's mating to the homo-polled JSF Times Square with sexed heifer semen means her daughter will come easy and polled. BFS bred heifers have earned a long term reputation. This one is sure to develop into a major breeding piece!

Offspring of IN DEMAND and UNIQUE will extend the influence of MARGIE RAD well into the next decade!

If we were ranking cow families in the Shorthorn breed, Missing Mirage would easily make my top five! The 81 descendants of Missing Mirage 2120 have impacted leading herds for decades, and her influence continues to improve the breed with every mating of her daughters and granddaughters. Possessing a direct daughter of 2120 is an opportunity that's worthy of serious thought...and action at the auction on September 26!

Missing Mirage 0205 is a former show heifer that is the epitome of the perfect Shorthorn cow. She's a classic redneck roan that is so level and complete from end to end, with the perfect silhouette and style to burn that combines with genetic excellence on both the top and bottom sides of her pedigree. Speaking of pedigree, it's time to talk about Propel! His daughters are well known as dependable producers that are good-footed and perfect-uddered. You'll see her perfect udder for yourself at the sale! Lot 24 is in the prime of her life and safe to the Show Bull of the Year, Direct Deposit, due in early spring. She's only had bull calves for us, so fingers are crossed for a heifer from this mating!

Whether you are enhancing an existing herd or starting a new breeding program, an addition of elite genetics from Missing Mirage 0205 checks all the boxes!

An own daughter of the great Missing Mirage 2120 sired by Propel and carrying the service of Show Bull of the Year, Direct Deposit

Aviator Daughters are becoming harder to find and this daughter of the great Missing Mirage 2120 is a TRUE GENETIC TREASURE!

The late Quintin Smith originally owned Missing Mirage 1802. He was a GREAT cowman who knew GREAT COWS, and this is ONE Great Shorthorn Cow! We acquired her as the Lot 43 Donor Feature of the 2023 Revival Sale for \$15,000. The decision to flush her to Look Ahead (ASAP) was a done deal – he was Lot 45 in the same sale! The Look Ahead progeny we are seeing now proves that our sale day “vision” was correct for Lot 25A. FSF Diamond combines width and depth with a great head and neck, and rear leg. Imagine his eye appeal and the flash of “chrome” he’s sure to infuse into the Lot 25B mating!

REVIVAL SUCCESS STORY

2023 Revival Lot 47

Leemon Stock Farm owns the great "Mylie," and they consigned an offer to create heifer embryos "Made to Order." John Allen and I got in a bidding war that ended in a truce with the two of us splitting the four eggs x \$2,300/each.

I love this heifer's mother! She was shown by Kaitlyn Berg and family for the Leemons. This daughter by Direct Deposit is exactly as I envisioned when we bought the Lot 47 opportunity.

Mylie 2617 was a favorite of visitors and the photo crew this summer. She's deep and balances up nicely. Her dark red hair coat and white markings will get noticed. "Show Heifer Deluxe!"

THE GOAT x MYRTLE BO 1876 Heifer Pregnancy

THE GOAT & RED REWARD x MYRTLE BO 1876 Heifer Embryos

You read that right – Myrtle Bo 1876 is the FULL SISTER to the dam of the great MFS Dream Weaver! Two of her daughters are working in prominent herds in Canada (Hill Haven and Head for the Hills) and her first bull calf, King of the World, was the popular NJSS Class Winner who is doing a great job for DeLisle Farms. Lot 27 heifer pregnancy by The Goat is very exciting, and the combo of Red Reward & The Goat in Lot 28 is very exciting x2! Two heifer genetics lots that are tremendous opportunities to calve and raise your next donor, and she'll be named with YOUR prefix – that's very exciting x10!

EIGHTEEN SEVENTY TWO – Sire of Lot 29

BYLAND ELITE 2SD66 – Sire of Lot 29A

Myrtle 2449 is a first calf heifer that is super-balanced from head to tail with genuine width from front to rear. She tracks out wide and square from behind, with a pretty, roan heifer calf following in her footsteps. Lot 29A is long-bodied, with extension and balance.

What we call good EPDs in the cow are even better in her heifer calf thanks to Byland Elite. Go take a look at ALL of their “right side” trait rankings on ASA Digital Beef. Additionally, mother and daughter rank in Top 10% for \$BMI. Myrtle 2449 is halter-broken and that's added value for the long term!

So....I had to Google “CREAM AT THE TOP.” Thinking it had be some kind of Hilger dairy-ism? Yep! Here's what I learned: “The beautiful layer of cream that you see on the top is the STAR OF THE SHOW in whole milk. The richness and flavor it brings is unmatched.”

When you study the Greatest Cow Families of the Shorthorn Breed, the RICHNESS and FLAVOR of this powerful dam and daughter started way back with THREE generations of original Woodland Myrtles!

Thanks for the vocabulary lesson, Joe and Kathy! You bring UNMATCHED cow sense and mating expertise to The Revival. We all admire your hard work and commitment to improving Shorthorn cattle!

LOT 30A

FULL SISTERS TO GANA MY TURN

I love the Low Rider daughter, Cici 0101! My good friend Craig Gana offered Evolution x Cici eggs in his sale and I HAD to have them. Cecilia 2619 is stout, deep and big-legged. She's been a favorite since the sale calves came in the barn!

GANA MY TURN

That said, I keep asking myself WHY am I selling this heifer pregnancy when I can SEE what it's gonna become? Plus, it's in really nice recip that's easy to be around. Do not let 30B pass YOU by!

Mona Lisa Reward

Here's a golden opportunity to access the legendary Mona Lisa cow family. These leading ladies have headlined many of the premier Shorthorn farms and sales across the country – from the original HR Mona Lisa 684Y from Hoyt Ranches, to 34L, 35L, and Tia from K-Kim and Sullivan Farms, and now, possibly the most influential female in the breed, SULL Mona Lisa Reward that resides at Cates Farms. Her Payweight heifer pregnancy could very well be the next branch of this cow family's legendary tree!

Lot 32 is a full sister to the record-setting \$20,000 high-selling pregnancy in the breed in the 2025 Revival Sale. The resulting calf from that pregnancy is already hanging banners! Payweight delivers unique growth traits combined with show ring appeal. When mated to the prolific Mona Lisa Reward... well, ask Tyler Cates what he thinks of this mating! Note the quick turnaround of this pregnancy due in November. The heifer calf could be a headliner in the spring. Heck, maybe even the Springtime Revival!

- Offered by Marshall Vista Livestock, Concord, MI
- Donor Dam Qualified
- Safe to Little Cedar Lasting Look 2418 (*x4375022), due 2/10/27.

Mona Lisa LL N521 has a champion pedigree!

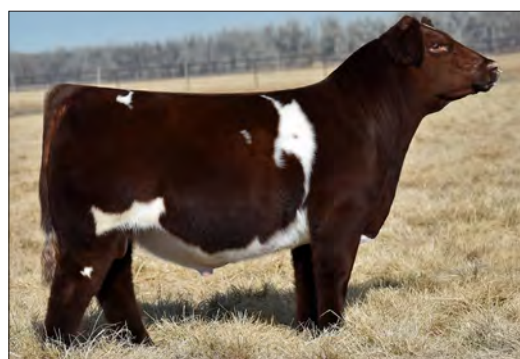

Her dam, Mona Lisa Reward 782 was Supreme Champion of the 2018 Keystone International, followed by Reserve Grand Champion of the NAILE Junior Show. In 2019, 782 swept Grand Champion of BOTH Denver and Fort Worth. And, prior to 782's impressive fall and winter campaign, her full sister, Mona Lisa Reward 780 had earned the coveted crown of summer: 2018 NJSS Grand Champion!

You may recall that this daughter of Long Look is a full sister to our 2025 Revival Lot 49 that was a barn favorite with a front row display lot. Lot 33 is easy fleshing and eye-appealing. She was shown by our 10-year-old nephew so she's excellent to work with.

We mated her to Lasting Look to capitalize on his LOOK (from his NAILE Supreme Champion sire, Lookout) and his POWER (from his dam, Gilman's Secret Beauty). Note that Lasting Look is now deceased and his semen bank is limited so mark this bred heifer as a major herd building opportunity!

LITTLE CEDAR LASTING LOOK 2418
Service Sire of Lot 33

CF S/F UPPER HAND X ET – Sire of Lots 34A and 34B

Upper Hand x Mona Lisa Reward = HEIFER & BULL OPPORTUNITIES!

Upper Hand's Aviator x Margie genetics on Mona Lisa Reward (truly one of the best cows in the breed) have produced sisters to the Lot 34A heifer pregnancy that have done their share of winning. But there's never been a full brother. (Tyler Cates verified and said a bull from this mating is a good idea.) Upper Hand has done a tremendous job for the Cates and Shoufler programs, and in mine! I was tempted to call Lot 34B "HERD SIRE PROSPECT" instead of BULL PREGNANCY. Note that the Lot 34A Registered Recip came to the Revival from Brien Jordan carrying a pregnancy. She's a damn good Shorthorn female who should be "promoted" to donor status. Three Revival Recips have been elevated from the surrogate role, and there's soon to be four!

REVIVAL SUCCESS STORY

2008 Revival Lot 5

Lot 5 offered TWO FLUSHES
of Miss V8 Mona Michelle 343S3 and
a Buyer's Bonus of 1 unit CF Solution

In the unofficial "storytelling competition" among Revival Consignors, I think Lot 35 could be the most interesting lot in the sale. She is certainly the most historical. Mona Michelle 2610 literally leaps from the archives of the Great Shorthorn Revival to PERPETUATE a great mating, and prove it TIMELESS!

I well remember the dam of Lot 35, Miss V8 Mona Michelle, to this day. She was owned by Kearns Farms and shown by Jake Bloomberg. She was a wildly popular Division Champion of the 2007 NJSS in Lawton, Oklahoma. (I also recall it was HOTTER and DUSTIER there than it was in Abilene!) Mona Michelle rounded out the summer as Grand Champion of both Illinois and Iowa State Fairs, and, in the fall, she earned a coveted NAILE Division Champion. At Denver 2008, she ascended to Reserve National Champion!

I paid \$9,000 for Lot 5 in the 2008 Revival and got two flushes of the great Miss V8 Mona Michelle, plus Dave Kearns provided one unit of CF Solution as a Buyer's Bonus. (A VERY BIG DEAL!) I know this sounds crazy, but I recently FOUND the Solution x Mona Michelle eggs from that 2008 Revival flush in one of my tanks! (Surely someone else has done this. Right?)

I decided the 25th Revival was perfect timing for a RETRO ET PROJECT – the result is Mona Michelle 2610! As expected from a mating of Solution and Miss V8 Mona Michelle, Lot 35 is a fancy heifer that simply oozes presence with her beautiful neck and SHOW RING LOOK that is embedded in her DNA. If you're looking for a heifer with a history AND a future, I hope you FIND the interesting and historical OPPORTUNITY that is Little Cedar Mona Michelle 2610!

- Donor Dam Qualified

When we look at this first calf heifer, her length, extension and frame is remarkable. Mating her is fun – her Byland Elite heifer calf is a good example, and her Direct Deposit calf will be exciting! Think about a powerful, wide, even smaller-framed bull and imagine the calf that will result. Lot 36A has a nice color pattern, blends smoothly, is compact and has a bit of her mother in her front end, with great growth potential. The dam of Lot 36 was our Mona Lisa 34L x DF Tuscaloosa donor that produced a great group of calves for us and retained a near perfect udder and good feet for 13 years. Mona Lisa 2400 is halter-broken and that's a big time value!

STUDY THIS IMPACTFUL GENETIC CONNECTION

Pedigree of Dream Maker: Red Knight x Dream On 5158
(His dam is Right Direction x Dream Lady 161)

Pedigree of Sasha Dream 2595:
Direct Deposit, by Right Direction x Dream Lady's Crown
(Her dam is Red Knight x Dream Lady 161)

*Dream
Lady
161*

This very close genetic connection is exciting! Sasha Dream is an absolutely gorgeous heifer that's already been shown successfully at 2026 NJSS, commanding 3rd Overall of Bred & Owned Division II. She is the most complete heifer we have ever raised, smooth in an elegant package yet she packs a punch of muscle when you get behind her. Judging by how she has blossomed since returning from Abilene, the best days of this exciting female are ahead! She is an absolute sweetheart and will be a perfect project for a junior of any age or any level of experience. She knows the ropes of the show road and that has a TREMENDOUS value! Let's review: (1) Sasha very closely combines the same dominant genetics of Dream Maker which says a LOT about her future in the breeding pen. (2) She has tremendous style with substance and is one of the best in memory to bear the Armstrong prefix. (3) All of the hard work is done. She is ready for any exhibitor to take to a show, have a fun learning experience, and succeed!

REVIVAL SUCCESS STORY

2022 Revival – Dam of Lots 1A & 1B

There's a great story in the 2022 catalog that tells how Steve French discovered 9169 and teamed up with Lynn Ewald to acquire her and perpetuate her genetic potential. (The starred notation above explains WHY!) It was a risky venture with a profitable result. 9169's two POWER COW daughters by Worldwide were selected to help build the foundation of DeLisle Farms' elite Shorthorn herd: Lot 1A brought \$37,500, Lot 1B brought \$13,000!

One of the first daughters of Solitaire
and the first natural calf of Margie EQ!

LITTLE CEDAR MARGIE EQ 2419 – Dam of Lot 41

The dam of Lot 41 is McKenzie Ranch's \$25,000 up-and-coming donor that we call "Margie EQ" to denote the superb COW-MAKING ABILITY of her sire.

I like these Solitaire daughters. Lot 41 exemplifies how outcross genetics on the topline (Solitaire) combined with the cow power on the maternal foundation of Equator/Lilac 1877 x Miss Margie will make a female that is a major asset in today's world of "Xerox" genetics. In case you haven't noticed, UNIQUE is IN!

If you are in the market for a competitive EDGE PROSPECT, Miss Margie 2606 can fulfill that goal. If you are in the market for a POWER COW, you've found her!

Revival-ism #1: DON'T EVER LET YOUR BUDGET GET IN THE WAY OF AN OPPORTUNITY.

Holding over this fallborn heifer to avoid winter calving really paid off. She has grown into a standout female, and it was never in the plans to sell her. But here she is! She maintains her balance and femininity, showcasing that stylish Augusta Pride front-end along with her big-footed foundation. The Augusta Pride family has been consistent in their quality traits.

When Steve spotted the photo of 2034 (pictured below), he exclaimed "What's THAT one?" I had to quickly explain that she was pictured for reference only! 2034 belongs to John Riebe, a young man who LOVES Shorthorns. He graduated high school last year and has aspirations to sell in The Revival one day. Considering the success he's had with 2034, we know he will!

THE Shorthorn WORLD Summer 1977

SELECT ON THE EXTREME SIDE

by Steve Torgerson, Oak Hill Farms, Austin, Minnesota

TSW Editor's Note: With the constant changes and the continual development taking place in the beef cattle industry, the author feels the goals expressed in the below article were sound and realistic when made in the early 1970's. To quote Steve Torgerson:

"The Shorthorn Breed is on the verge of creating a whole new image for the commercial cow industry — one of production and efficiency. We are just a step away from attaining goals we once felt impossible."

I am convinced for the breed to progress,

selection must be on the extreme side in the direction you want to move. I believe extremes are a must to move a herd or a breed. The average will produce average, with a stand-still or even a backward movement for either the herd or the breed.

Depth in cow power is a must, and it can be secured by keeping those guiding principles in mind on every cow selection, by combining them with full use of our modern-day testing programs, then by following the same selection methods on sires and by admitting mistakes and culling both cows and bulls severely that do not produce to these standards. Then only, will we move our breed forward.

THE FEMALES

When picking our replacement heifers, we look for good length of body along with good elevation to achieve more scale at maturity. We feel the ability to continue to grow and develop in young heifers may be indicated by a gangly appearance with more length of head and a larger ear than has been accepted before. These heifers must walk wide both front and rear, and with an air of confidence. Above all, we pick our heifers to look feminine and possess broodiness which we feel is needed to make this heifer a great producing cow.

THE HERD BULL

Our herd bull in pasture condition must be a rugged individual that stands on a generous amount of bone and walks with both fore and hind legs wide apart. He must have a wide rib cage and continue this generous width through the loin and quarters, then combine this good depth through the round.

Thanks to Gary McKenzie, McKenzie Ranch, for discovering and sharing this timeless, practical knowledge imparted by our friend and fellow breeder Steve Torgerson!

A bull should stand on more leg than was considered ideal a few years ago. The round should bulge, but unless it is long through the rump and deep in muscling toward the hock, its percentage will be disappointing.

As the cows need broodiness and femininity, the bulls must be masculine and possess muscling if we are to produce offspring which will have genetic ability to meet performance testing requirements. We like an active bull, one that is proud and high headed, as he is truly the boss of the herd.

TESTING — THE ROAD TO BETTER BEEF

We must not fear testing programs. Although it must be admitted that a testing program may focus attention on some weaknesses in your herd, it may also bring to light some strong features about which you have been unaware. In either event, it is the road to better beef. The same may be said of the show ring. Many a champion on the farm finds that it is a rocky road when the animal is led into the ring of a strong show. At the show, comparison is a great equalizer of the quality of one's show animals. We also need such eyeball appraisal to continue progress.

You cannot assume that great progress will be made by breeding desirable to undesirable animals. Breeding should be done to provide genetic consistency, which will move the breed in the direction the breed should move. We need breed improving animals on both sides of pedigree.

The ability to breed on is the final test of a breeding program. Selecting and breeding towards a goal — with extremes generation after generation and discarding those that do not "cut the mustard" — is the best practice for breeders desiring to improve the herd and the breed.

SALE DAY ONE DAY ONLY! SEMEN SPECIAL

On September 26,
these popular Little Cedar Mgmt
AI Sires will be offered at a
discounted price!

LOT 47A

LOT 47A

Here's a 2025 "sale report" that will connect some dots. Lot 47A's maternal sister by Lookout, Blooded Ruby 2502, was offered last year as Lot 22. She was selected by Jarrod Payne to develop as an elite donor. Jarrod is a top-notch cattleman who works in the highly competitive real world of BEEF selling BIG groups of commercial BULLS to BIG ranches. He has been interested in Shorthorns since his days growing up in Ohio. Jarrod invested \$18,000 for 2502 and we agreed to stay hitched to help him fulfill her potential. It's gonna be so fun to mate this tremendous breeding female. Can't wait to write the story of her ROI!

Now back to regularly scheduled programming: Lot 47A. When Jarrod's 2502 by Lookout was very young, her potential was very convincing that a mating of Blooded Ruby 2206 to Look Ahead (son of Lookout) was the logical next step. Man, Lot 47A is stout and good! She has that really good neck and great haircoat that everybody wants. Blooded Ruby 2608 is one of my favorites in the offering. She will stand in some heat in the first division at Louisville!

LOTS 47B & 47C

Lot 47B, 2206's heifer embryos by Look Ahead, will easily speak for themselves (Refer to Lot 47A!) so I'm not gonna use up a lot of ink here. Mark this package of eggs and come judge for yourself! Earl and Candy Enix bought the dam of 2608 and 2502, in the 2022 Revival and she is one of the best cows to reside at 1264 Van Dyke!

This is how Lot 47C stacks up: Perfection/434P-3/Red Knight/Blooded Ruby 3278. The female that results from 2206's mating to Living Legend (the great son of Perfection that is DSF) will present UNLIMITED mating and marketing opportunities!

LOT 49

LOT 49

2602 is the first natural calf of Traveling Ruby 2416, our full sister to Traveling Ruby 394 (pictured right). Congrats to Reed Hanes for the achievement of Early Spring Yearling Champion in the 2024-25 National Shorthorn Female standings. Likewise, 2416 is currently VERY highly ranked on the LCCC Female standings – her daughter by Look Ahead proves WHY!

Lot 49 (Look Ahead x 2416) is THICK-MADE and very SOUND (as you would expect), she has SHOW-STOPPING visual appeal (as you will see) and POTENTIAL without limits (as a breeding female)!

LOT 50

I'll bet you recall the great Greenhorn heifer offered as Lot 20 of the 2025 Revival. She's the full sister to Lot 50 heifer embryos! GCC Ruby's Obsession 326 was snapped up last year by Stan Comer of Classic Genetics in Oklahoma. (He knows the good ones!) Bentley Baldwin did a super job showing her to Reserve Champion of the very competitive Division VI at NJSS. Lot 50 – don't let it pass you by!

• Offered by Greenhorn Cattle Company, Waynesville, OH

The HD Ruby 903 family has had a huge impact on the Shorthorn breed and we acquired this exceptional granddaughter, Rosebud 7144E, last year to add the strength of this respected maternal line to our breeding program. In addition to her top-notch cow family credentials, we believe 7144E may very well be the best daughter of Red Reward in the breed today.

We are excited about her mating to JSF Outback, \$320,000 world record-selling bull purchased by a syndicate of breeders from all over the U.S. and Canada. Perhaps no heifer embryos selling this fall can impact a breeding program more than this mating of Outback x Rosebud 7144E!

Rose Mary

When Joan sold Rose Mary 2011 in the 2024 Revival Sale, I made sure we had a few eggs saved in the tank to keep this female's valuable genetics in our program.

2011's embryos by Dream Maker were my first choice to put in.

Whoa! Rosemary Dream 2611 is one of the biggest-barrelled, deepest females in the sale!

Sure, she can be very competitive in the show ring. But the true value of Dream Maker females is that they make great cows and donors. He's deceased now so semen is gonna sell only in the "opportunity" range. Tip: Start investing in Dream Maker daughters any time you see them for sale. You'll thank me later.

Daryl Leese and Family were the buyers of Rose Mary 2011 when she was featured in the Revival Sale of 2024. They invested \$16,000 in this great female to anchor their growing Shorthorn unit. Their decision to mate her to Dream Weaver was a savvy one. (Since I know you're wondering Kevin, Pickford, Michigan is located a little above your Michigan map in the Upper Peninsula, 193 miles due north of Beaverton across the Straits of Mackinac. By the way, do Buckeyes have maps?)

Welcome, Lassies!

2026 National Shorthorn Lassie Queen, Masyn Riggins

Masyn is from Macomb, Illinois and is a sophomore at Kansas State University, studying Animal Science and Industry Management with a concentration in Bovine Reproduction, along with a certificate in Leadership. Her future plans are to become an Artificial Insemination Technician and then pursue a master's degree to become a Bovine IVF Field Specialist. Masyn has a strong passion for the cattle industry and is excited to continue growing her knowledge and experience in the field.

I want to sincerely thank the Revival Consignors for inviting us to the 25th Anniversary sale, and for all that the breeders do to support the Lassies. I am so beyond grateful for the opportunity to be here representing the Shorthorn breed, and be surrounded by so many people who share my passion for the cattle industry. – Masyn

2026 National Shorthorn Lassie, Sadie Cummons

Sadie Cummons hails from southeastern Ohio, and currently attends The Ohio State University Agricultural Technical Institute. She is majoring in Agricultural Studies with a focus on Meat Science and Animal Embryology and is a member of the livestock judging team. A fifth generation farmer, Sadie has been actively involved with Shorthorns her entire life. Sadie's passion for agriculture is deeply rooted in her family's farming legacy and the values she has gained through a lifetime in the livestock industry. She is committed to helping create a strong future for agriculture and the livestock industry for generations to come.

I have dedicated my reign to the late Melvin Clair Bye of Bye Well Shorthorns! He encouraged me to join the Lassie program in Ohio many years ago and I am deeply grateful to Clair and everyone who has supported me through my Lassie journey. – Sadie

Scan the QR code
and join today!

Officially organized in 1956 during the Chicago International Livestock Show, the Lassies were created to support, promote, and elevate the Shorthorn breed while cultivating leadership among young women across the country. Now, 70 years later, that mission continues through Legacy 56 — a fundraising initiative designed to preserve the past, empower the present, and secure the future of the Lassie tradition. Since its founding, the National Shorthorn Lassies have served as the women's auxiliary of the American Shorthorn Association. Over the years, Lassie roles have included organizing breed promotions, hosting receptions at national shows, coordinating educational activities, and supporting the National Shorthorn Lassie Queen program. Lassie royalty represent the Shorthorn breed at shows, sales, and events nationwide, serve as spokeswomen, educators, and role models. Their duties extend far beyond wearing the sash and crown. They also lead youth programming and introduce the next generation to the Shorthorn breed and the agricultural lifestyle.

The Legacy 56 initiative was created to ensure that the Lassie Queen program — and the broader mission of the Lassie Association — remains strong for decades to come. Supporters are asked to contribute \$56 annually in honor of the year the Lassies were founded, and celebrating every woman who has carried the title since 1956. Funds support travel, scholarships and youth education programs. By becoming a Legacy 56 member, you will help ensure that the Lassie tradition remains vibrant, accessible and impactful for future generations.

Legacy 56 is more than a fundraiser. It is a tribute to the women who have shaped the Shorthorn breed — and a promise to those who will lead it into the future!

LOT 54

LITTLE CEDAR CURRENT PICTURE 2314 E ET
2024 NJSS Bred & Owned Division VI Champion

JSF OUTBACK 105N – Sire of Lot 55 Embryo Package

LOTS 54 & 55

Current Picture is another one of the Woodlawn collection that is very difficult to let go. The maternal sister to Worldwide was a great show heifer, pictured above as 2024 NJSS Division VI Champion of the Bred & Owned Show, and she has become a super breeding female. (That's pretty much the grand prize, don't you think?) Like her mother, she has been a good egg producer, and she is confirmed safe with a LOOK AHEAD HEIFER due in early February. I have to report that she had one of our best ET bull calves in the sale but we lost him in a freak accident in mid-August. I decided to put a different sire opportunity in his place in the catalog. Can you imagine a bull calf out of her mating to Outback? I can! The Lot 55 mating will be incredible, bull or heifer, but I know how great her son was so I'm "currently picturing" her OUTBACK SON in my mind – and I like what I see!

LOT 57

JSF OUTBACK 105N – Service Sire of Lot 57

REVIVAL SUCCESS STORY

2022 Revival Lot 33

This Aviator daughter, Max Rosa 2205, sold to Woodlawn in 2022 for \$20,000. She is a great young cow that has produced only heifer calves and is carrying another heifer calf by Outback! Her daughters in past Revival Sales were selected by Morris Ranch, Arkansas and Haylo Farms, Georgia. I can see 2205 hitting one out of the park with her March 2027 calf! She is an easy cow to work thru the chute and bring up from the pasture and that's worth a LOT to many breeders. I know it is to me! I suppose it won't be all that long before the greatness of Aviator daughters is the stuff of legends. You can outbid everyone on Lot E and speculate in ET with Aviator semen. (Not that there's anything wrong with that!) You can also invest in a young, dependable Aviator x Max Rosa female who produces desirable daughters you can turn into dollars! (Alright, alright, alright.)

Cumberland 115E is the ultimate "front pasture cow" and one of Woodlawn Farm's greatest acquisitions! She produced and raised Lookout, 2022 NAILE Grand Champion Bull and Supreme Champion. (Of course, Joan came up with his memorable name!) Enix Farms, LLC is our partner in Lookout's semen interest and they also purchased his full sister in the 2023 Springtime Revival. Jay Benham bought the possession of Lookout to lead his well-respected Stone Springs Shorthorns herd and he's thrilled with the results! Gotta point out that Lookout is the sire of Look Ahead, Lasting Look and Gun Smoke. We recently flushed Cumberland 115E to Outback and she produced eight embryos! That brings us to her next calf by Look Ahead, due in mid-November. I predict a genetic explosion from this mating!

EXCLUSIVE SEMEN PACKAGE

REVIVAL SUCCESS STORY

2021 Revival Lot 34

Son of Lot 58 • Sire of Lot 60

Lookout is a CHANGEMAKER. With limited use through semen sold only in Revival Sales, he has sired a \$61,000 bull, a \$28,000 heifer, and three National Division Champions. He is the sire of Look Ahead, Lasting Look and Gun Smoke. As herd sire for Stone Springs Shorthorns, he has produced winners. Use this semen to flush your best cows and create CHANGE that will make \$\$\$!

Grand Champion Bull

Ten Queens

2019 Houston Stock Show Reserve Champion mated to Evolution and Metallika

The Ten Queens cow family has been one of the most successful in recent history producing a multitude of influential females in many different programs, proving the unparalleled ability of this line to make competitive heifers that become reliable producers. The Lot 62 matings of TMF Queen's Aces Straight to Evolution and Metallika present versatility that will be hard to match in most any other combo-pack-age in this sale.

Evolution semen is an "ultra-exclusive" offering these days. Plan to spend in the "opportunity" range and keep bidding as the competition among leading breeders dictates what it's worth.

Metallika is the only son of JSF Kane Cinch on the market. His sire's outcross pedigree combines with his dam's Lady Crystal foundation (Crystal Swan, Crystal's Lucy, 434P-1) to make him truly unique genetically. His show success and ring presence is exceptional – if you've seen him you remember him!

INVESTING in HEIFER EMBRYOS is a GREAT WAY to GET AHEAD in this breed!

LITTLE CEDAR TEN QUEENS
Maternal Granddam of Lot 62 Donor

WHR RHS TEN QUEENS 942 ET
Daughter of Little Cedar Ten Queens
Dam of Lot 62 Donor

REVIVAL SUCCESS STORY

2005 Revival Lot 10

2007 Revival Lot 22

Little Cedar Ten Queens was only six weeks old at the 2005 Revival when Rick Hogue bid \$25,000 to take her back to Ohio. She was a true contender and barn favorite each time she was shown by Jesse Hoobler, amassing an impressive record prior to stepping into her role as principal donor for RHS. She has produced 55 offspring to date.

Rick offered a Feature Flush of Little Cedar Ten Queens in the 2007 Revival Sale and Bill Rasor of WHR Shorthorns in Texas was the winning bidder at \$8,000.

Almost 20 years later, the WHR/RHS Ten Queens collaboration continues to make a significant impact on the breed!

LOT 63 DONOR

Liberty Lassie

Few young donors combine pedigree, phenotype and long-term breeding potential as does BSG Liberty Lassie 2362 of 25J ET.

A direct daughter of the legendary Waukaru Lassie 2024, Liberty Lassie possesses the genuine brood cow look that is increasingly difficult to find in an outcross female. She is deep-bodied, fault-free in her structure, and elegant through her front one-third. Backed by the maternal function, symmetry and fleshing ability that have made this storied cow family so respected, all signs point to her becoming as influential as her renowned dam.

The buyer of Lot 63 will select one of four elite sires to create four IVF embryos:

- JSF Outback, the world record-selling Shorthorn bull, headlines the offering with exceptional design, outcross pedigree and tremendous breeding versatility.
- Gilman's Clarity offers breed-leading genetic merit, worldwide demand and the rare ability to combine elite EPDs with National Western Champion credentials.
- Little Cedar Look Ahead brings added muscle, extension, style and eye appeal.
- For those looking for time-tested maternal excellence, Saskvalley Bonanza 219M remains one of the breed's great cow makers. His daughters continue to anchor leading Shorthorn programs across North America.

- Offered by Miller Farms Shorthorns, Lodi, WI
- Donor Dam Qualified
- Safe to Gilman's Magnum 44N ET (*x4392098), due 1/5/27.

Lassie 546 is a foundation female that we hate to part with, but we know we have to offer our best in the pursuit of brand building for Miller Farms Shorthorns. The herd was established in 1908 by Stanley Miller and managed by his daughter, Lydia Lou O'Brien. In 2022, Lydia Lou's nephew, Terry Quam and his family purchased the herd and now our fourth, fifth and sixth generations have added Shorthorns to our Angus breeding program!

The dam of Lot 64, Lassie 811F, was purchased on CCI Live from the 2023 Revival Sale and she is exactly as Steve described her in three words: functional, productive, consistent. (We like that economy of language!)

Lot 64 is by our herd sire, Waukaru Rawhide 9001, who descends from over 60 years of the prominent Red Nan family at Waukaru. He is athletic, deep and level in design with a nearly flawless profile. He was the lead bull of Waukaru's NWSS Pen of Five. His daughters have beautiful udders and maternal features.

Following Steve's concise footnote style, I'd say Lassie 546 is: feminine-fronted, sound and athletic. She ranks far above average for most all EPD traits. Her maternal brother will be featured in our herd sire pen at Cattlemen's Congress.

We've mated Lassie 546 to our newest Shorthorn herd sire for her first calf. Magnum is homozygous polled and an elite calving ease sire with power, lower quarter and outstanding maternal performance. He ranks in the Top 1% of the breed for \$CPI at \$213.65.

FULL SISTER TO UNIVERSAL

What a valuable breeding piece this yearling heifer is now – and she will be for life!

Lilac 1877 has been a well-known and respected producer of breeding bulls. (She and her sons are featured on the previous page.) Her Worldwide daughter, Lilac 2567, is the full sister to Vaughn Farms' herd sire.

The Harris family of Texas has a Dream Maker maternal sister to Lilac 2567. She has done a lot of winning and is now elevated to donor status for Marley's elite junior bred & owned program! Get it girl!

LOT 68

Royal Ruby 603 is a heifer with a pedigree and a story worth telling.

Her dam, AF VF Royal Ruby 303 ET, was purchased in the Revival Sale by Delisle Farms in Fall 2024. Adalynn and Dave struck a deal: if Adalynn would show Royal 603 she could have a flush. Cool! To Adalynn, it seemed logical to flush Royal 303 to the bull that got Dave into the breed, Little Cedar Equator!

Lot 68 is the complete package: big-ribbed, super sound, extra clean through her throat, and she moves like a cat. Bred like she is and built like she is, 603 will be a benefit to any program.

LOT 69

I always really liked Lot 69's full sister, the 2023 NJSS Reserve Grand Champion bred by Venndetta Cattle Co. and shown by Bristol Bates. Another full sister sold as Lot 1 in the Greenhorn Sale last year and was 2026 FWSS Reserve Grand Champion for Alexa Turner (pictured below). Here's the same sire/dam combination in a RED package. Lot 69 has a super front end and is very well-balanced. Future donor!

The dam of Lot 70 is an Aviator daughter that comes from a long line of dependable Maid females at Crawfdown Farms. With her daughter by Equator, nine-year-old Maid 7E has earned the "dependable" reputation for herself! She has a great udder and does the work raising her calves. Equator daughters are making POWER COWS (see his dam on page 62!) and that's what you can expect from Maid 03P. She's a strong-topped, straight-lined classic brood cow type that comes from the strength of Thermal Energy x Lilac 1877 and Aviator x Maid 24N.

The Crawfdown Jane cow family has been among the most reliable lines in this breeding program for as long as I've been involved with Shorthorns – and that's lifelong, eh? We've brought Janes to the Revival many times and they've represented us well in top herds of the U.S. The mating of Byland Flash to the Crimson 72H daughter Jane 06L has assembled into Jane 19P every trait you could want for a cow prospect. She's a big-volumed heifer with lots of length and lots of style. Mark this one with a "P" for potential as a herd builder!

LOT 73A I mated our full Argentine female, Elvira 14K, to Byland Elite envisioning a next level donor prospect! Elvira Elite 2612 exhibits natural thickness and an overall BEEF COW look that we don't often see! In her EPD profile, she ranks high in maternal traits, marbling and the value indexes. There's not an asterisk to be found in the bottomside of her pedigree! Since 2014, we have invested quite a lot in our Argentine breeding project: dollars, time, rethinking, experimentation. The culmination of breeding a completely unique female like Elvira Elite makes it all worthwhile. Mating her will be interesting and fun! If you are intrigued with the idea of gaining a shot of "Pure Shorthorn" genetics in your breeding program this female should be on your list!

LOT 73B When I purchased a share in Clarity, Elvira 14K was the #1 female on my mind. This "Pure Shorthorn" female ranks high for Maternal traits and Marbling so these embryos were INTENTIONALLY UNSEXED. I visualize the next BREED CHANGER from this mating – bull or female!

This bred heifer is as good in her form as she is on paper! She combines length of body with an impressively thick, structurally complete powerful base. The combination of Saskvalley Primo, Bonanza and 1872 makes her a remarkable female with great growth potential. Her granddam, Sasha 205, was one of our best cows. Her traits are still carrying through in this cow family. Lot 74 is halter broke to lead and very gentle.

Kendras
are a
GREAT COW
FAMILY!

Kendra

LOT 76

KSS BLDSTONE PRIDE 278 ET
Dam of KSS Pride Ultimate Reward 2345,
the sire of Lot 76A

Note on the sire of Lot 76A, KSS Pride Ultimate Reward 2345. He was produced by the mating of our Pride 278 female (pictured left) to CF S/F Ultimate Reward, 2016 NWSS Reserve Grand Champion. He is a dark red, homozygous-polled, calving ease sire with extra front-end extension. He has great calves on the ground at our place and we are excited about him!

The pedigree on this first calf heifer speaks quality. She is sired by Firestorm with Evolution and Deception 2 on the maternal side, as well as firmly rooted in our great Kendra cow family. Kendra 2411 brings together parts of all of them into one female! She has a fancy look, beautiful feet and legs, is balanced and level, has a quality udder with ideal teat size, shape and placement. Her dam is a moderate-framed cow with a huge barrel, good feet and real good EPDs. Her heifer calf is very young but has "promising" written all over her just like the other calves we have by her sire.

LOT 77 DONOR

LITTLE CEDAR LOOK AHEAD 2306

BACK 2 GOOD ET

When we saw 17L at the Springtime Revival, we knew then that Steve and Julie were committed to selling their best...and that we wanted her!

This triple clean Perfection daughter proves that they can be "clubby" bred and still make awesome cows. 17L has a super front-end, an udder that you couldn't draw any better, and bone and rib shape to top it off.

Expertly shown by Lexi Lane, Perfection Lassie 17L was 2026 NJSS Division X ShorthornPlus Champion with her Lasting Look bull calf at side. Perfect Look 2601 was shown by Liv Jurevicius. Lexi and Liv are AJSA members from Grove, Oklahoma and they made an outstanding team! All of us are enthusiastically awaiting 17L's heifer calf by Look Ahead due early next spring.

When we decided to flush 17L, Look Ahead was first choice considering how super his progeny are turning out. Then, we decided that flushing her to Back 2 Good would be an exciting twist. The work's done with this forward-thinking combo – a sure bet for ShorthornPlus breeders who like to make money!

**Thanks to Steve & Julie and
ALL Revival consignors for
coming together to make a major
IMPACT on the breed for 25 years!**

— Mike Davis, Woodrange Farm

REVIVAL SUCCESS STORY

2026 Springtime Revival
Lot 51 Pair & Lot 23 Herd Sire Prospect

Lane Cattle, Facebook post, April 20, 2026: "We are very excited about our recent purchases at the Springtime Revival sale. We are fortunate to get to partner with Mike Davis and Wayne Temple on a very special cow/calf pair (Lot 51 & 51A). We also made an investment in what we feel is a bull calf (Lot 23) who combines pedigree with phenotype to create tremendous potential. All three are just fun to look at and that makes going to the barn very exciting."

Tamale 588-3 has been one of our best producing cows. She is the dam of two \$100,000 Maternal Legends high selling females. She raised two NJSS ShorthornPlus Champion Heifers, Grand Champion at the Chianina NJHS and a NAILE Supreme Champion Female. If you are serious about winning in the highest levels of ShorthornPlus do not let this mating of Tamale 588-3 to Dream Maker get away from you!

• Retaining the right to one successful flush.

Lot 79 is a daughter of the incredible ShorthornPlus female bred by Sterling Reichenbach (SH) and nicknamed "Halsey." Half interest sold thru the Revival and I partnered with Zach Lindsey and Cody Vogel to own half with Sterling. Halsey had quite a run, shown by Reagan Jansen of Iowa, culminating in Grand Champion of the 2019 NAILE ShorthornPlus Open Show. I sold a daughter by Worldwide to Alayna Caulfield of South Dakota for \$30k and she did a LOT of winning. Mate Halsey 2609 to a Shorthorn pure-bred and produce a 7/8 blood. Her classic roan coat color is a "PLUS!"

Sinful Rose

If we can help you in any way – before or after the sale – call or text Steve French at 989-798-8223. We want you to be successful with your Revival purchase!

DOCUMENTATION OF TERMS • For lots in which future fulfillment is a factor (ie. retained rights and retained percentage ownership), the Revival retains the original sale terms on file in case of a dispute.

EMBRYO PACKAGE TERMS • If implanted by a certified embryologist, all embryo lots are guaranteed to produce at least one pregnancy, or one replacement embryo will be provided. Embryos must be implanted, and replacement claim made, within a calendar year from purchase date. Complete settlement must be made in order for embryos to be released. Shipping arrangements and costs are the responsibility of the buyer.

EMBRYO SHIPPING ARRANGEMENTS • Buyer must contact the consignor directly within 30 days of the sale to make embryo shipping arrangements. *Consignors cannot be expected to store embryos for you longer than 30 days unless you have personally made arrangements with them to do so.*

PREGNANCY INSURANCE • The Revival urges buyers of heifer pregnancy lots to consider investing in prospective calf coverage. Consignors have taken the first steps by having pregnancies confirmed for this sale in accordance with current policy conditions. Rates are: 15% up to 30 days after birth; 17.5% up to 6 months after birth. Coverage must be purchased before the recipient leaves the sale location or within 3 days of the sale (9/29/26). To review coverage stipulations and determine if the lot qualifies, contact: **Jeanne Conover, Conover Insurance Services, 515-491-1335**

RETAINED FLUSH RIGHTS • Sellers who have retained the right to flush a specific female are responsible for all expenses and the coordination of services (timing and location) at the buyer's convenience. It is not unusual to conduct multiple ET sessions (conventional or IVF) to achieve the minimum quantity of embryos desired.

DNA GENOTYPING & GENETIC TESTING • A DNA genotype is utilized in establishing parentage, determining the presence of a genetic condition, and to produce genomically enhanced EPDs (GE-EPDs). Animals do not have to be DNA genotyped, or free of a genetic condition, to be registered. However, if an animal becomes an A.I. sire or donor dam all required genetic testing must be completed and a DNA record must be on file with ASA prior to registering any progeny.

American Shorthorn Association Breeding Guarantee

Revival Sale is held in accordance with ASA Recommended Terms of Sale posted on: www.shorthorn.org/members/membership-info
All animals are guaranteed to be breeders unless they fail to breed due to injury or disease occurring after purchase. Please be aware that animal condition greatly influences fertility. If you encounter problems, promptly notify the consignor, sale staff who assisted you, and/or Steve French. You will be assisted in arranging the return of the animal to the consignor for a 6-month period, as prescribed by ASA Suggested Sale Terms.

*We're All In
This Together!*

Sale Location

1264 Van Dyke Road, Beaverton, Michigan 48612

Beaverton is located northwest of Midland, east of Clare, northeast of Mt. Pleasant (home of Soaring Eagle Casino) and north of Lansing.

It can be chilly in Michigan this time of year...bring a jacket for AM and PM! Chilly weather means Fall Colors Season in "Pure Michigan." Plan to look around a little. Visit www.michigan.org for ideas in any direction!

Driving Directions *Because GPS can be unreliable in our area!*

Directions from U.S. 10 to the sale site:

From Clare (west of ranch) travel U.S. 10 to the M-18/Beaverton exit. Take M-18 north 9 miles to Dale Rd. Turn right (east), go 3 miles (cross over river bridge) to Shock Rd. Turn left (north), go 1 mile to Van Dyke Road. Turn right, go .5 mile to Little Cedar sign on left.

From Midland (east of ranch) travel U.S. 10 to the M-30/West Branch exit. Take M-30 north 14 miles to Van Dyke Road at Big R's. Turn left (west) go 2.5 miles to Little Cedar sign on right.

Important "Bidness"

Terms Of Sale Are Cash, Check or Credit Card

Please be prepared to pay for your purchases on sale day so we may settle this sale promptly! Credit card payments will be charged a 3.5% convenience fee. Cattle will not be permitted to leave the premises until complete payment is made.

Phone/Internet Bids

To pre-register as a buyer and bid by phone, contact any Sales Representative, Steve French or Julie French. All phones are listed at left.

To pre-register as a buyer and bid via internet, visit www.CCI.Live three hours prior to the sale.

Updates and Announcements

A catalog update of additions and corrections will be printed and posted to CCI.Live. Announcements from the sale block take precedence over all printed material. Please do not hesitate to ask questions! We'll make every effort to satisfy reasonable requests.

Livestock Health

Each animal has a state-approved health certificate for interstate shipment, which will be provided upon settlement. Buyers should make themselves aware of the health requirements for their states.

Livestock Insurance

We encourage you to take responsibility for protecting the value of your livestock in transit and recommend these trusted insurance professionals:

- Jim Bessler, James F. Bessler, LLC, 815-762-2641
- Jeanne Conover, Conover Insurance Services, 515-491-1335

Livestock Transportation

Consignors are willing to assist with transportation to their home locations at a reasonable cost. To inquire about this convenience, call or text in advance of the sale or as soon as you make a purchase: Matt Miller, 517-202-3628

Risk & Care for Animals

Each animal will become the buyer's risk "at the fall of the hammer." Little Cedar Cattle Co. will care for each lot for a reasonable amount of time. Please discuss your needs prior to the sale and make sure your plans are noted at the settlement desk.

Don't let it pass you by!
